

CENTER FOR ADULT LEARNING

STAFF

Ron Cullums, Business and Industry Coordinator, ext. 240, cullums@ohio.edu
Maryann Lape, Administrative Coordinator, ext. 249, lape@ohio.edu

The Center for Adult Learning has the broad mission of providing high quality educational programs, services, and career development for non-traditional students, through a variety of learning environments. In 1999, a physical “Center for Adult Learning” was established, to embody this mission.

The Center for Adult Learning responds to the needs and expectations of adult learners, creatively examining recruitment, partnerships, and the packaging of programs and services designed to meet adult needs.

The Center for Adult Learning also encompasses the Workforce Development Initiative with the Ohio Board of Regents, business and industry partnerships and training programs, as well as noncredit continuing and professional development programs directly furthering the economic development of Fairfield County. The Center works in close partnership with area public and private agencies that are focused on economic development.

Goals for the Center include; expand adult recruiting efforts, explore new services for adult learners on campus, actively further the economy and business development of Fairfield County, and increase internal and external public relations initiatives relating to adult students.
